DESCRIPTION

The model-specific line of Fine-Tune Projector (FTP) mounts brings ease of use and precise adjustment to the forefront of projector mounting. Installation time is reduced because these mounts have mounting-hole patterns designed for specific projector models. Simply attach the mounting plate to the projector, then hook and fasten the mounting plate/projector assembly to the mount. Model-specific FTP brackets have been made for projectors from SONY®, Mitsubishi®, Sharp®, NEC, Christie®, and many more.

FEATURES

- Lock-It security hardware included
- Quick installation tool
- Mounts to pipe or ceiling structures
- Innovative, patent-pending mechanism enables smooth, fingertip alignment (no tools required)
