DESCRIPTION

The IPM-710 is a sleek frame designed to secure an iPad™ with access only to the home button in a wall mounted digital signage environment. It is compatible with iPad™, iPad2™, and iPad™ (3rd Generation). Featuring a simple four-screw installation and availability in a black or white finish, the IPM-710 provides a simple and elegant way to turn an iPad™ into a protected digital signage delivery platform.

FEATURES

● Secure frame encloses entire iPad™, but allows access to the home button

● Ventilation openings for airflow are located on the top and bottom of the mount

● Frame is available in a black or white finish

● Quick installation using only four screws on any flat surface

● Frame easily removes with two M3 set screws for maintenance

● Frame is wifi and wireless network compatible

● Open frame allows mounting on top of optional In-Wall Cable and Power GearBox™ (GB-INWAVPB, sold separately)

● Other colors available upon request and extra charge

● Compatible with iPad™, iPad2™, and iPad™ (3rd Generation).
