## DESCRIPTION

This multi-monitor configuration includes the VPM-100 basic pole mount, which provides 12° of pivot and is VESA 100 × 100mm compatible. Two VPM-100 mounts are included with a single 28 in. pole with extrusion track base. Many monitoring consoles use aluminum extrusion or track rails to mount and position video display monitors. A pole extrusion base can be used to upgrade and refurbish consoles with older displays.

## FEATURES

- 12° of omnidirectional movement and 360° rotation
- Base can be installed on 1.5 in. on center T-slot channel or single T-slot channel
- Key hole mounting slots for faster installations
- Set screws allow the mount to be positioned anywhere along a pole
