DESCRIPTION

The FTP-FCTA4-QL combines the universal Fine-Tune Projector mount (FTP, in black) with the false ceiling adapter (FCTA) with quick-lock cable and 4 pipe with a cable routing outlet. This is the ideal mounting combination for projectors in classrooms, training-rooms and boardrooms. The FTPs enhanced fine-tune makes it easy to adjust pitch, roll, and yaw independently. Once the image is aligned, lock the FTP in position with a knurl knob. The easy to install FTP-FCTA4-QL is designed to be integrated with a new or existing suspended ceiling structure.

FEATURES

- Lock-It™ security hardware and leveling barrel provides added protection
- Hole-cutting escutcheon ring
- Includes 100 ft. of braided cables with looped ends and quick locks
- Adapter plate sits hidden above the ceiling tile within the T-bar frame
- Projector includes universal mounting legs (four long pre-installed, two short) with post-installation leveling barrels
- Includes quick installation disk for direct ceiling installation
- Innovative patent-pending mechanism enables smooth finger-tip alignment (no tools required)
