DESCRIPTION

The GB-ENCL32 universal enclosure for flat-panels is designed to protect flat-panel displays indoors and in outdoor environments. GB-ENCL32 safeguards displays from the elements and provides protection against vandalism. The patent-pending ThermaVent™ airflow design allows the enclosure to maintain the lowest profile possible. Optional heaters, A/C units and additional fans are available to meet specific project requirements. It can accommodate most 32 - 40 in. flat-panels, but enclosures for displays larger than 50 in. are available through the custom department. The enclosure is NEMA 4 compatible and is certified to withstand direct water from rain, hoses and sprinklers.

FEATURES

- Can be mounted in portrait or landscape orientation
- Patent-pending ThermaVent™ design allows enclosure to be mounted directly to the wall
- Mounts to walls, ceiling adapters and floor stands
- Comes standard with a quarter inch-thick non-glare acrylic screen
- Includes two air fans with filtered intake
- Includes universal mounting bracket for 32 - 40 in. flat-panels
- Silicone-sealed knockouts for power/video feed
- Compatible to NEMA 4 testing standards
