10 lb.

DESCRIPTION

The MAG-FCTAW combines the MAG-PRO-W universal projector mount for projectors that weigh less than 10 lb. and the PP-FCTA, a false ceiling t-frame adapter. The MAG-PRO-W includes the patented MagnaGuide™ feature which reduces installation time by using powerful magnets to easily guide the integrated pipe coupler to the mount. A safety lever locks the two pieces together securely. Radial Glide™ allows up to 10° of smooth tilt adjustment and a simple lock-down screw secures the adjustments. Lock-It™ security hardware is used at critical mounting points for a safe and secure installation. With nine inches of lateral shift, the PP-FCTA allows for precise projector placement while hidden above the ceiling tiles.

FEATURES

- Patented MagnaGuide™ reduces installation time and aids in projector alignment (U.S. Patent No. 7,758,001 B2)
- Radial Glide™ provides smooth roll, pitch and yaw
- T-bar plate sits hidden above ceiling tile
- Nine inches of lateral shift for precise projector placement
- Includes 100 ft. of 14-gauge wire and a split-flange escutcheon ring
- Electrical and cable knockouts on ceiling plate
- OSHPD and DSA approved (OPA-1683-07)
