DESCRIPTION

This multi-monitor configuration includes the VPM-100, basic pole mount, which provides 12° of pivot and is VESA 100×100mm compatible. A single VPM-100 mount is included with a 15" single pole with extrusion track base. Many monitoring consoles use aluminum extrusion or track rails to mount and position video display monitors. Use a pole extrusion base to upgrade and refurbish consoles with older displays.

FEATURES

- 12° of omni-directional movement and 360° rotation
- Base can be installed on 1.5" on center T slot channel or single T slot channel
- Key hole mounting slots for faster installations
- Set screws allow the mount to be positioned anywhere along a pole
