50 lb.

DESCRIPTION

This audio kit includes speakers, a CPA-50 amplifier and wall equipment GearBox™. The included compact power amplifier, CPA-50, powers the speakers and supports multiple stereo inputs for connecting to a projector, microphone and other sound sources. It is easy to install on a wall with no need to penetrate the ceiling, which saves rack space and avoids plenum issues. An equipment management plate, UNI-EMPB, can also be inserted to organize and secure additional equipment.

FEATURES

- Integrated energy-efficient 50 watt compact power amplifier
- Acoustically balanced two-way speaker system includes two speakers, each with a 5.25 in. woofer and directional one inch tweeter
- Patent-pending GearBox™ enclosure securely stores the CPA-50 amplifier and third-party devices such as microphone receivers and network adapters
- Multiple audio inputs, including a line-level microphone input
- Best for classroom and conference rooms where ceiling installations are not possible
